

Scanned codebase:

sample-express-codebase

Number of scanned files:

4

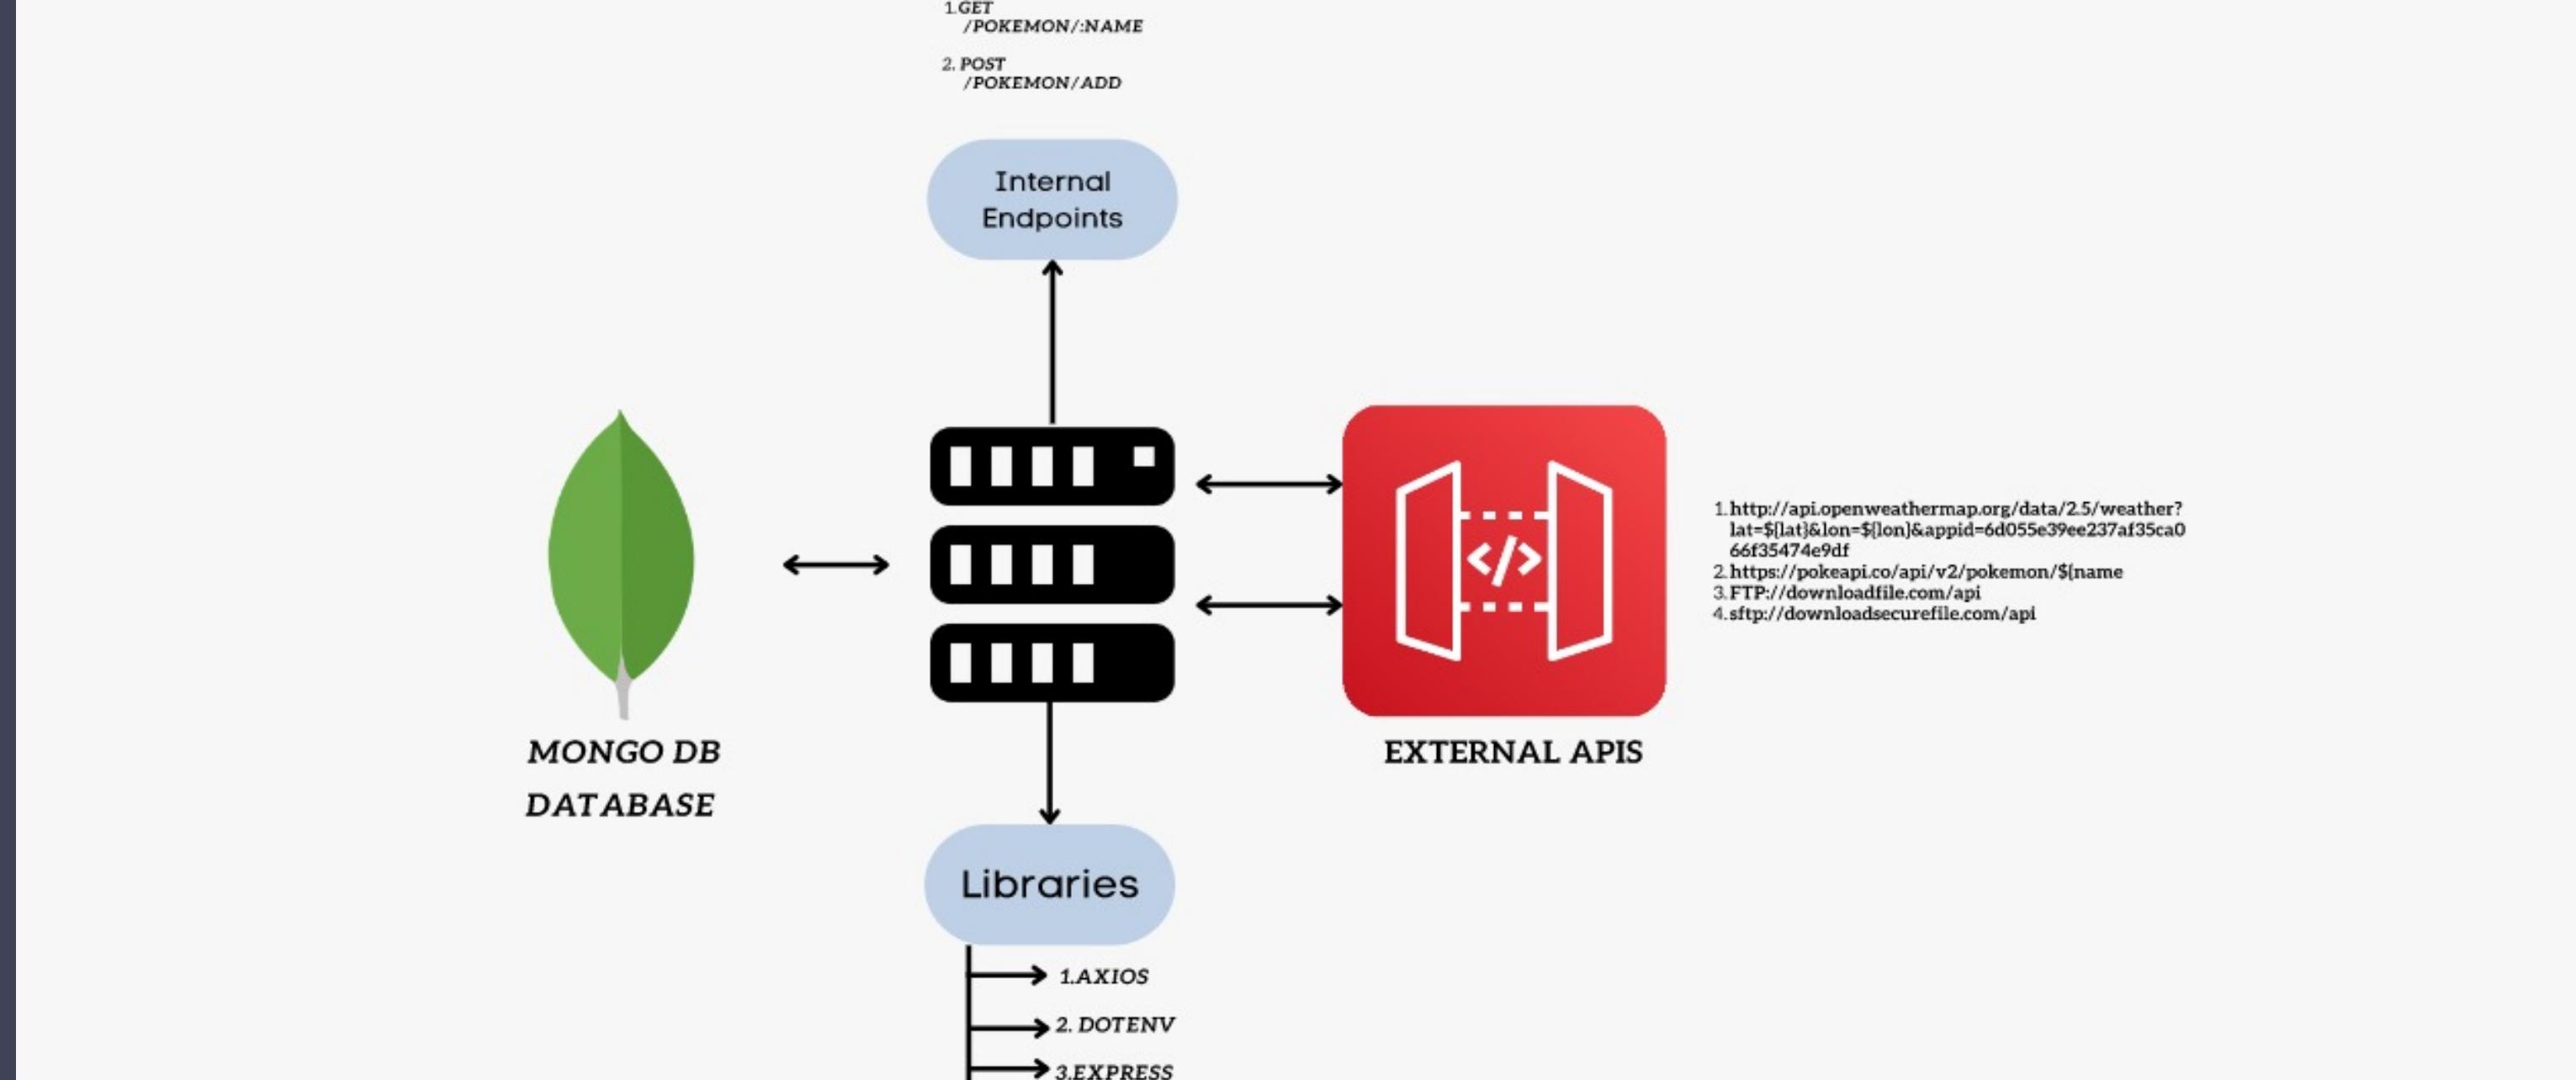

Tech stack:

Express.js, Node.js

Database type:

MongoDB

Integration Architecture Diagram:

File integrations

index.js

External API connections:

<https://pokemonapi.com/api/v/1.1> line 12

<http://openweathermap.org/weather> line 31

Note: The above API is using HTTP however we recommend switching to HTTPS since that provides more security

Internal API endpoints:

</home> HTTP GET

</pokemon/:name> HTTP GET

</pokemon/add> HTTP POST

File integrations

test.js

External API connections:

<sftp://downloadfile.com/api/> line 12

Internal API endpoints:

None

Security scan for API secrets
